

To whom it may concern,

It is my pleasure to recommend the expertise of SA Office Interiors.

During the course of 2019 SAOI renovated and modernized our new laboratory facilities in Lyndhurst. The venue, at the time of our occupation, was dilapidated, and seriously in need of care and maintenance. In a few short weeks the situation was resolved as Sean's team consolidated our specific needs into a clear and effective plan, and transformed our space into a creative environment that not only showcases the identity of our company, but also offers our engineers a comfortable, fun environment in which to function. SA Office Interiors are leaders in their industry.

SA Office Interiors is the clear choice for any company's space management and interior beautification needs.

Regards
