

To Whom it may concern:

SA Office Interiors (Pty) Ltd recently handled our office Fit-out as Maxi Phumelela Security moved into new premises.

The Project team from SA Office Interiors paid real attention to our project and made a complex and phased out project run effortlessly.

As the project Managers SA Office Interiors kept us in the loop each day with regards to what was happening on site. We were sent weekly project reports and did not encounter any major slip ups with them in control.

Our project was handed over before the deadline and surpassed all our management's expectations.

We are already planning on using SA Office Interiors for our other branches Nation Wide.

Yours Faithfully
